## Council on Workforce Investment Health Care Sector Sub-Committee

### The Charge:

Establish priorities that will create measurable success for industry partnerships in Wisconsin for the health care, advanced manufacturing and energy sectors.

### Sector Subcommittee responsibilities:

- Establish a knowledge base about Wisconsin industry partnerships and national trends in sector strategies.
- Develop a vision for identifying and sustaining a health care industry sector leadership framework in the state over time.
- Review current LMI data to determine workforce challenges and work to close industry skill gaps,
- Develop and implement workforce training and development initiatives to improve the State's industry competitiveness focusing on career pathways that align with labor market gaps. Assist educational and training institutions in aligning curriculum and programs to meet industry demands.
- Focus on developing and promoting middle skill jobs within the targeted industry sector as well as address the needs of special populations (low-income populations or those with barriers to employment).
- Establish priorities for effectively scaling regional industry partnerships in Wisconsin.
- Establish a mechanism to identify and track measurable goals.
- Leverage financial resources and in-kind support to carry out the health care sector strategies, and promote ongoing communication between employers, workers, training providers, and service agencies.
